The Children’s Neurological Center

Bringing World-Class Care to Kids in our Community

All children should be able to reach for the stars, whether they have a perfect bill of health or a serious neurological condition. That’s every parent’s wish, as well as the vision behind The Children’s Neurological Center (CNC). As part of The New Jersey Neuroscience Institute at JFK Medical Center, our facility impacts thousands of families throughout the tri-state region by providing an extensive network of premier neurological services designed to give children the best care, and the best chance for a healthier future.

“Our goal is to provide kids with the opportunity to achieve their potential,” asserted Okey P. Anene, MD, Director of CNC and Pediatric Services for JFK Medical Center. The institution boasts an extraordinary team of highly skilled, board-certified pediatric subspecialists who are leaders in their fields, as well as nurses, technicians, neuropsychologists, social workers and other professionals dedicated to bringing world-class neurological care to children in our communities.

The facility offers a comprehensive scope of medical and surgical services for all kinds of childhood neurological disorders. Among its distinctions, CNC is the region’s only program with pediatric neurology, neurosurgery and rehabilitation under one umbrella; it has the largest radiodiagnostic center for brain tumors in the state.

CNC provides a compassionate, kid-friendly environment that encompasses every discipline, technology and resource a child may need during his or her journey from diagnosis through recovery.

(Continued on next page)
Families using the services of CNC never have to travel around the state for specialty care; they simply walk down the hall. And that can mean a lot when a child is sick, undergoing long-term treatment—or when a family is seeking first class care close to home.

Our clinical centers of excellence include the following inpatient and outpatient programs:

**Sleep Program**
Under the direction of two of the world’s top authorities in sleep medicine, the Pediatric Sleep Center at The New Jersey Neuroscience Institute is the only facility in the state that provides evaluation and treatment for all sleep disorders, including sleep apnea, night terrors, childhood insomnia, restless leg syndrome and other problems that collectively impact up to one-fourth of children under the age of 18. The program is comprised of an outpatient center as well as a recently expanded sleep laboratory for around-the-clock observation and monitoring. Furthermore, its physicians are published internationally for their extensive research and oversee a sleep fellowship program—training and mentoring other doctors pursuing advanced certifications in adult and child sleep medicine.

**Neurology**
The Children’s Neurological Center has the depth and experience to surgically treat epilepsy, brain and spinal cord tumors, spina bifida, spasticity from (or complications of) cerebral palsy, hydrocephalus and any type of neurological condition. It is one of a few centers in New Jersey with a dedicated pediatric neurosurgeon who works collaboratively with additional subspecialists to employ the latest minimally invasive and endoscopic techniques, including the gamma knife and cutting edge neuro-navigation imaging technology that has made surgeries safer and available to children previously diagnosed with “inoperable” tumors.

**Brain & Spinal Cord Tumors**
Few things are more frightening to parents than learning their child has cancer. At CNC, we do everything possible to ease their fears by providing the most advanced tools and promising interventions for both malignant and benign brain and spinal cord tumors. Our multi-disciplinary team addresses every aspect of medical care, incorporating the expertise of pediatric neuro-oncologists, neurosurgeons, intensivists, neuro-pathologists, radiation oncologists and numerous other specialties. We are the only New Jersey facility equipped with gamma knife technology, a breakthrough treatment for brain tumors and arteriovenous malformation (AVM), while also providing radiosurgery, intensity modulated radiation therapy (IMRT) and chemotherapy.

**Epilepsy**
CNC welcomes a large percentage of the state’s pediatric epilepsy patients with a program featuring the newest assessment tools and therapeutic innovations. A cutting edge video EEG monitoring unit, for example, measures the brain’s electrical activity, enabling physicians to determine the location or origin of seizures and recommend the best course of treatment. The program’s wide array of interventions includes ketogenic diet, vagus nerve stimulation and other effective surgical techniques.

**Neurobehavioral Disorders**
CNC offers a uniquely integrated approach to neurobehavioral disorders, such as Autism, learning disabilities, attention deficit/hyperactivity disorder (ADHD), obsessive-compulsive disorder (OCD), and movement disorders. Intervention begins with advanced imaging modalities, such as state-of-the-art positron emission tomography (PET) and computed tomography (CT) scanners to facilitate accurate diagnoses. Treatments are tailored to each child and may include new low-dose medications and recently introduced parent/child and group therapies.

**Neurological Rehabilitation**
At least one-third of CNC’s patients require rehabilitation, which makes a dedicated pediatric rehab facility a welcome component of our vast continuum of care. Housed in the nearby JFK Johnson Rehabilitation Institute, services of the
A Message from the Chairman

Dear Friends,

Spring has arrived and with it a new season for the JFK Medical Center Foundation. Our organization is flourishing alongside the seeds of change—from new leadership, to grand goals and empowering plans for the future.

The past year reflected tremendous strides in JFK Medical Center’s philanthropic program, as the Foundation generated more than $2.3 million in revenue, an increase of seven percent over 2005. The monies were raised through numerous initiatives, topped by our 2006 Annual Appeal, which was the most successful in nearly a decade, and such events as the Solaris Invitational and JFK Golf Classic. Together, these two annual traditions generated over $326,000 for the New Jersey Neuroscience Institute, the JFK Johnson Rehabilitation Institute’s Center for Head Injury and Alzheimer’s Disease and Dementia programs.

Extraordinary support from the community was paralleled by the unfailing dedication of the Auxiliary of the JFK Medical Center Foundation. In addition to fulfilling its record-breaking $3 million pledge to the hospital, the Auxiliary donated an initial $30,000 on their new $2.5 million pledge. The group’s stewardship and fundraising efforts exemplify the genuine spirit of charitable giving.

We fully expect to expand on these accomplishments in 2007, positioning the hospital for accelerated growth and maintaining JFK Medical Center’s reputation as a leading health care provider. Faced with declining reimbursements for such programs as Medicare, Medicaid and charity care, the needs of the Medical Center are greater than ever. The JFK Medical Center Foundation is working diligently to secure resources for a myriad of quality enhancements, clinical investments and new facilities, and remains optimistic about the future.

With the sustained generosity of our donors, we are confident that we will continue to meet the region’s health priorities by fostering a culture of excellence and expanding our continuum of care. In 2007, we look forward to funding additional enrichments for the Children’s Neurological Center, construction of a new long-term care facility, and other essential projects.

As you read this issue of “Touching Lives,” I hope you will share my enthusiasm for the many exciting things in store for our hospital, our patients and residents of central New Jersey. On behalf of our Foundation Board and staff, please accept my gratitude for your ongoing support. I invite you to visit us and see first-hand how your gifts are making a difference at JFK Medical Center.

Sincerely,

John G. McDonough, DMD
Chair, JFK Medical Center Foundation

---

Pediatric Rehabilitation Department are designed for children with any type of neurological illness or injury impacting cognitive, physical, emotional, social, psychological and/or educational functioning. JFK operates one of the state’s largest outpatient centers of its kind, incorporating physical, occupational and speech therapy as well as programs for social development and other vital skills that help patients optimize their independence and quality of life. These services are complemented by school and community-based programs.

Inpatient Care Unit
When hospitalization is required, CNC patients are cared for in JFK Medical Center’s 22-bed inpatient pediatric unit, which includes a designated special care unit for critically ill children. Children are nurtured in a soothing, family-focused atmosphere that fosters exceptional standards of quality care. The unit is directed by a board-certified pediatric intensivist and staffed by physicians and nurses who are trained and experienced in treating young patients with neurological problems and those recovering from surgery. Additionally, the unit is among the most “wired” in New Jersey, equipped with computerized charting and medication management systems that maximize patient safety.

The JFK Medical Center Foundation is currently raising funds to advance the vitally important work of The Children’s Neurological Center.

Learn more about how you can enrich the lives of children impacted by neurological illness and injury by contacting Donna M. Meade, Executive Director, at (732) 632-1540.

For more information about CNC or a physician referral, call 1-877-NEURO4KIDS or (732) 321-7651.

The JFK Medical Center Foundation is currently raising funds to advance the vitally important work of The Children’s Neurological Center.

Learn more about how you can enrich the lives of children impacted by neurological illness and injury by contacting Donna M. Meade, Executive Director, at (732) 632-1540.

For more information about CNC or a physician referral, call 1-877-NEURO4KIDS or (732) 321-7651.
If there’s one thing Donna Meade understands, it’s “TouchingLives.” As the new Executive Director of the JFK Medical Center Foundation, she embraced the renamed publication as a vehicle for fulfilling the organization’s vision as well as more personal aspirations. With nearly 30 years in the non-profit sector, Ms. Meade has dedicated her entire career to helping people and enriching society.

Donna comes to the JFK Medical Center Foundation with a diverse background in development, community relations and all aspects of fundraising and non-profit management. She most recently served as President/Chief Executive Officer of the Tri-County Scholarship Fund (TCSF), which provides financial assistance and mentoring to deserving, economically disadvantaged children in Passaic, Morris and Sussex Counties. Under her stewardship, the organization doubled its endowment fund over three years and awarded scholarships to more than 900 children annually.

Prior to TCSF, Meade was Chief Operating Officer for Kean University Foundation, Union, New Jersey.

“The JFK Medical Center Foundation is an exciting, challenging opportunity for me to channel my fundraising experience,” said Meade. “I have contributed to a broad spectrum of humanitarian causes, higher education and community-based organizations. Health care is a natural extension and I look forward to working diligently on JFK Medical Center’s behalf to help provide the best medical care for residents of central New Jersey.”

In her new position, Donna seeks to energize the Foundation’s philanthropic efforts with initiatives designed to expand the Foundation’s Board of Directors and donor base while invigorating corporate and community interest in supporting JFK Medical Center. “We are extremely fortunate to have Donna on board to guide the Foundation through a pivotal period of growth and progress,” asserted John Nolan, Senior Vice President of Foundations.

Together, I am certain we can impact the quality of health care available to our community.”

—Donna M. Meade—

Solaris Health System. “Her success in growing non-profit organizations and building endowments will be of great value as the Foundation renews its commitment to advancing the hospital’s vital mission.”

Over the years, Meade has been recognized for her far-reaching accomplishments. She was recently honored by the Women’s Fund of New Jersey for outstanding contributions to non-profit organizations and currently serves as Board Member and Vice President of Executive Women of New Jersey, where she works to promote scholastic and professional opportunities for women. Additionally, Meade is an active member of the Association of Fundraising Professionals (AFP), New Jersey Chapter, and the Middlesex County Chamber of Commerce.

Donna has a Bachelor of Arts in Communications from Queens College (CUNY) and a Master’s Degree in Public Administration from University of Central Florida. She also holds a Non-profit Management Certification from Harvard Business School and has completed several other professional development seminars.

Meade’s strong philanthropic spirit is complemented by her focus on family. She devotes most of her free time to her husband, Blas Ruiz Diaz, and her three children, Daniel, David and Natalie, as well as her avid interest in cultural cuisine.

“I am truly enthused about bringing a fresh approach to JFK Medical Center’s fundraising efforts and collaborating with colleagues, benefactors and other constituents to infuse more resources into the hospital’s continuum of services,” added Meade. “Together, I am certain we can impact the quality of health care available to our community.”

Donna M. Meade
Joins the Foundation
Steve Rothman has a long history with JFK Medical Center. After growing up in Edison, and earning a Bachelor of Science from The College of New Jersey, he began his professional career as an accountant in the hospital’s Finance Department. Twenty-seven years later, as Senior Vice President, Investments for UBS Financial Services Inc., he has returned to serve on the JFK Medical Center Foundation Board of Directors.

Mr. Rothman has steadily climbed the ranks at UBS Financial Services Inc. since joining the company as a financial advisor in 1981. In his present role, he manages portfolios totaling over $200 million and advises on individual and corporate investment planning, college funding, retirement planning, tax management strategies and other investments. Additionally, Mr. Rothman is a consultant for executive and corporate benefit programs and oversees institutional pension accounts with assets exceeding $1 billion.

He views the JFK Medical Center Foundation Board as an ideal opportunity to contribute to his hometown community as well as his company’s philanthropic program. “Many of the hospital’s patients are UBS clients, so it is fitting for us to offer charitable support,” he noted. “On a more personal level, I’m looking forward to helping the hospital that helped me get started...JFK Medical Center has been very good to me and my family and I’m happy to give something back.”

“The Foundation is fortunate to have someone of Steve’s character and professional experience join the Board” said Dr. John McDonough, JFK Medical Center Foundation Board Chair. “It is especially meaningful when someone returns to his roots and gives back to his community, as Steve is doing for JFK. I know we will benefit greatly from his experience and knowledge.”

Steve Rothman is a certified financial planner and holds an MBA in Finance from Fairleigh Dickinson University. He and his wife, Joy, reside in Middletown and have three children, Daniel, Amanda and Tim.
Roy Family Honors Father’s Memory and Legacy

$50,001 Gift Advances Cancer Care at JFK Medical Center

The late Dr. Girija N. Roy, a prominent Scotch Plains veterinarian and community activist, viewed the achievement of professional success as an obligation to his family, and helping the less fortunate as an obligation to his faith—a greater obligation, and one that guided his 64 years on earth. Encapsulated in the Hindi word “seva,” Dr. Roy dedicated his life to serving others.

“Whether it was service to family, friends, clients or the community, Papa touched and improved countless lives in so many different ways,” said his son, Pryia Roy. That is why his family decided that the best way to honor his memory would be to perpetuate his charitable legacy, while also honoring an institution that shared his passion for giving. On the first anniversary of his passing, in January 2007, the Roy family along with friends donated $50,001 to JFK Medical Center’s cancer program.

Born in a rural village in Bihar, India, Dr. Roy immigrated to the United States in 1971 with about $10 in his pocket and dreams of new opportunity. He made a home in Central New Jersey, where he opened three animal hospitals and practiced veterinary medicine for 27 years.

Dr. Roy’s allegiance to the profession was complemented by a social responsibility to both his homeland and local communities. He was President of BJANA, an Indian service organization, and active in numerous other Hindi causes, while also aiding the American Red Cross, Rotary International and various humanitarian efforts. His sons proudly recall him raising money to help the sick and underserved abroad, and treating rescue dogs at the World Trade Center following the tragedy of September 11. Dr. Roy was extraordinarily generous in all facets of his life, so it was only fitting that he received the same compassionate care during his own family’s time of need.

When Dr. Roy was diagnosed with cancer, his family traveled to the most prestigious health care institutions in the country. “Yet we found that the medical care provided by a hospital only five miles from our home far surpassed the care he received at the more famous institutions,” stated Pryia Roy. “The doctors, nurses and every member of the JFK Medical Center staff treated my father with the utmost compassion and respect, and treated our family as part of their own. They truly exemplified seva.”

For months, the Roy family thought of the hospital as their second home, spending every day and evening by their loved one’s side. They forged relationships with the nurses on all shifts, touched by their consistent acts of kindness.

“They made us feel special,” asserted Mr. Roy. “That’s why we wanted to give something back to the hospital and other patients in hope that their experiences will be similar to ours, and that we can contribute to improving cancer care for families in our community.”

The gift of $50,001 was earmarked for enhancements to the medical center’s outpatient Infusion Center, including additional chairs and amenities for chemotherapy patients as well as advanced technologies for diagnosing and treating cancer.

“Don’t wait until someone is sick to come into the hospital… Come inside now and make a difference.”
—Mukesh Roy—
“We are deeply grateful to the Roy family and their friends for their philanthropic generosity, which will help JFK Medical Center provide the highest quality oncology services,” stated John G. McDonough, DMD, Chair, JFK Medical Center Foundation. “The donation enables us to accommodate more patients in the Infusion Center while offering a more comfortable environment that alleviates some of the stress associated with serious illness.”

JFK Medical Center’s modernized Infusion Center was dedicated in Dr. Roy’s memory on January 26, 2007. The heart-warming ceremony was attended by several members of the hospital and Roy family, as well as such distinguished guests as Edison Mayor Jun Choi, Assemblyman Upendra Chivukula and Congressman Frank Pallone, Jr., who was a personal friend of Dr. Roy.

“This is not the end of our support, but the beginning,” said Mr. Roy. “Our family looks forward to more charitable activities to help the hospital grow and serve those in need.”

“We hope to follow in our father’s footsteps,” added Mukesh Roy, who was also present at the Infusion Center dedication. “We feel a calling to do more...to volunteer and inspire others in the community to come forth and get involved.”

“Don’t wait until someone is sick to come into the hospital,” he urged. “Come inside now and make a difference.”

If you would like to join the Roy family in contributing to JFK Medical Center’s cancer program, please call the JFK Medical Center Foundation at (732) 632-1540.

The Haven Hospice Antique Car & Bike Show is revving up for a third consecutive year on Sunday, August 26, 2007, noon to 4 p.m., at Cramer’s Corner Tavern in New Brunswick, New Jersey. The event is orchestrated by Grace Ciampi in appreciation for the compassionate care her father and family received during his stay at Hospice. It features about 100 antique and classic automobiles and motorcycles from around the state, as well as games, refreshments and awards. Over the past two years, the show has raised nearly $12,000 for Haven Hospice.

For more information about participating or sponsoring the 2007 Haven Hospice Antique Car & Bike Show, please call Grace Ciampi at (732) 599-7222.
Auxiliary Concludes Milestone Year

The Auxiliary of the JFK Medical Center Foundation had plenty to celebrate in 2006, as it concluded one of the most exciting years in the organization’s history. At its General Meeting held in October, Auxiliary Co-Presidents Judith L. Spiegel and Doris B. De Sarno presented a check to John P. McGee, President/CEO of Solaris Health System, symbolizing the fulfillment of the Auxiliary’s $3 million pledge to JFK Medical Center. The pledge was committed in 2000 and represents the largest gift ever issued by the Auxiliary.

“This was a thrilling moment for us and a very big milestone in the life of the Auxiliary,” stated Mrs. Spiegel. That donation was followed by a second check representing the Auxiliary’s initial payment toward its $2.5 million pledge to the JFK Medical Center’s 2004 Capital Campaign. The money is earmarked for the new ambulatory care building, which will be named JFK Auxiliary Ambulatory Care Plaza in honor of the organization’s generosity.

These landmark gifts were garnered though the Auxiliary’s ongoing fundraising initiatives, highlighted in 2006 by the 43rd Annual Ball, A Touch of Class. Held on April 29, the event broke the record books by generating $171,000 while honoring several of the Auxiliary’s most devoted supporters: Nossratollah Hooshangi, MD, PA, Director of JFK Medical Center’s Division of Neurosurgery; A. Joyce Busch; Robert H. Busch and All-State Legal Supply. The Heather Twig of the Auxiliary hosted another highly successful benefit, the “Fall into Fashion” luncheon and fashion show, held on October 29 at the Metuchen Golf & Country Club. Over 150 guests lined the runway to raise over $10,000 for the Mary Anne Hale Pavilion of Haven Hospice.

In addition to its philanthropic work, the Auxiliary also sustained its commitment to community outreach, including a fitness program for area middle schools, nursing home activities and scholarship awards to deserving students pursuing advanced education.

“I am proud to report that we have raised a grand total of over $11 million for JFK Medical Center, while also promoting health and wellness in our community.”

The Auxiliary looks forward to continued festivities in 2007 as it prepares to commemorate its 45th anniversary this fall. Added Mrs. Spiegel, “We have large goals and much more to celebrate in the coming year!”

Auxiliary Co-Presidents Judith L. Spiegel and Doris B. De Sarno present a $3 million check to Scott Gebhard, Executive Vice President/COO of JFK Medical Center, John P. McGee, President/CEO of Solaris Health System, fulfilling their pledge to JFK Medical Center.
In Memoriam: Doris B. De Sarno

The Board and Staff of the Auxiliary and the JFK Medical Center Foundation deeply mourn the passing of Doris B. De Sarno in February, 2007. Mrs. De Sarno was President 1999 and 2000, and Co-President 2005 and 2006 of the Auxiliary, as well as an active member of the organization for more than 38 years. Her fine leadership and passion for supporting the hospital will be remembered along with her kindness, perseverance and humanitarian spirit. She will be missed by the entire JFK Medical Center family, and will remain in our hearts as we carry on her tradition of caring for our hospital, patients and community.

The Auxiliary’s 44th Annual Ball: An Enchanted Evening
Saturday, April 28, 2007
Bridgewater Marriott • Bridgewater, New Jersey

Honorees:
- Martin Gizzi, MD, PhD
  Chairman, New Jersey Neuroscience Institute at JFK Medical Center
- Peter Cancro
  Owner, The Shore Grille and Deli

Proceeds to benefit the New Jersey Neuroscience Institute at JFK Medical Center. For more details, call The Auxiliary of the JFK Medical Center Foundation at (732) 321-7085.
Eleven-year-old Willie Forsythe is not just a patient at the Children’s Neurological Center (CNC). He’s part of the family. A division of the New Jersey Neuroscience Institute and regional leader in pediatric neurology, CNC has been the central resource for Willie’s medical care since he was a toddler. Challenged by a myriad of complex neurological conditions, he has grown and thrived under the compassionate expertise of CNC’s dedicated team of specialists. He truly exemplifies the unique commitment between families and clinicians as they journey together toward healing, hope and attaining each child’s fullest potential.

“The staff treats Willie as if he was their own son...understanding and addressing his needs, encouraging him, nurturing him, and helping him be the best he can be,” said his mom, Deborah Forsythe. In her view, CNC is far more than a doctors’ office. For Willie, it is a safe haven that has given him the comfort, courage and confidence to succeed.

The Forsythes, formerly residents of South Plainfield, New Jersey, came to CNC on the recommendation of their pediatrician and other trusted childcare professionals. They were concerned about Willie’s development at just 2 years old, noticing delays in his speech, muscle weakness, eating behaviors and social behaviors. Following a comprehensive evaluation by CNC’s multidisciplinary group of pediatric subspecialists, Willie was diagnosed with several neurodevelopmental problems and his family was presented with a clear, coordinated treatment plan.

“That is what distinguishes the Children’s Neurological Center from other facilities,” stated pediatric neurologist Michael Seyffert, MD, Medical Director, Child Evaluation Center. “We have many renowned neurological experts under one roof, giving us the ability to work together, reach a consensus and provide an integrated approach to diagnosis and treatment.”

Willie received occupational, physical and speech therapy at CNC, showing dramatic progress within weeks. A young child with limited interaction and vocabulary began singing songs and conversing with others, while also learning how to tie his shoes, button his clothes and even throw a ball. “This early intervention gave Willie the self-esteem to overcome his fears and the freedom to grow up,” said Mrs. Forsythe. “So when he went to pre-school, he boarded the bus with a smile and said ‘See ya, Mom.’ That was awesome.”

Over the years, Willie has faced additional hurdles associated with attention deficit/hyperactivity disorder (ADHD), sleep problems and other neurological complications. According to Dr. Seyffert, ADHD is the most common childhood neuropsychiatric disorder, affecting close to 10 percent of all children, and often co-exists with related medical conditions.

“For that reason, it is so important to treat the whole child,” asserted Dr. Seyffert. “The Children’s Neurological Center is staffed and equipped to handle multiple issues at the same time and consider every aspect of a child’s development and well-being.”

Although the Forsythes moved to East Stroudsburg, Pennsylvania, CNC has continued to serve as Willie’s primary health provider. “Everyone at the center—from the doctors to the technicians—has been wonderful,” remarked Mrs. Forsythe. “I don’t mind traveling a little longer to get Willie the best care.”

Willie has progressed tremendously under the guidance of CNC, making great strides in such areas as speech, fine motor coordination and behavioral modification. Now in the sixth grade, he is excelling in school and pursuing such interests as karate, soccer and has aspirations of becoming a veterinarian.

“The Children’s Neurological Center helped Willie emerge into a confident, more self-reliant child who is leading a full life,” added Mrs. Forsythe. “They don’t treat him as a sick kid, but as a person who is happy being himself...I couldn’t ask for more.”

Dr. Michael Seyffert and Willie Forsythe
aris may be a continent away, but some hot new “couture” has surfaced right here at JFK Medical Center! Every Wednesday, nurses from each floor don attention-grabbing tee shirts that read “Guess Where We’re Going?” It’s a spirited way of generating buzz about one of JFK’s most exciting pursuits…Magnet designation.

In 2005, JFK Medical Center joined Solaris Health System in a collaborative goal of attaining this coveted recognition for nursing excellence. The initiative began with a kick-off event introducing the criteria for achieving Magnet status, which is awarded by the American Nurses Credentialing Center. Armed with confidence and perseverance, nurses embraced the monumental challenge of proving clinical proficiency and quality in 14 key areas of nursing practice and set out to identify 165 pieces of evidence that show why JFK Medical Center ranks among the nation’s best hospitals for nursing care.

With funding from the JFK Medical Center Foundation, a team of nurses representing 18 hospital departments also set out to Miami, Florida, where they attended an empowering Magnet conference. “They came back with a better understanding of Magnet so they could spread the word and champion this critical endeavor at JFK,” stated Laura Mularz, APRN, BC, MSN, CNS, Clinical Nurse Specialist and Magnet Coordinator for Solaris. “They garnered valuable insights into the evaluation process and initiatives implemented at other Magnet institutions.”

JFK has moved toward Magnet by collecting demonstrative data and launching several innovative programs that further enhance patient care, nursing retention and recruitment, staff morale and the ultimate result of better patient outcomes. For example, the hospital is offering rewards and incentives to nurses who choose to further their education, seek specialty certification or join professional organizations. JFK also gained access to a national database that allows the Medical Center to benchmark quality improvement measures, productivity, mortality rates and other success indicators against other hospitals across the country.

“This effort is an extension of JFK’s commitment to providing outstanding health care. It has unified and motivated our entire staff, incorporating the support of nursing, physicians and other disciplines,” said Ms. Mularz. “We’re striving to achieve Magnet status by 2008.” As one of only about 240 in the country, it will be an honorable distinction for the hospital and another source of pride for patients and the community.
The JFK Annual Golf Classic held on September 6, 2006, at the Metuchen Golf & Country Club had another successful year with 152 golfers taking to the course—raising over $120,000 in support of the JFK Hartwyck Nursing, Convalescent & Rehabilitation Centers’ Alzheimer’s Disease and Dementia programs.

We extend special thanks to our Co-Chairs Glenn Slavin, Vice-Chair, JFK Medical Center Foundation Board of Directors and Leonard Sendelsky, Chair, JFK Hartwyck Board of Directors and the members of the Golf Committee for their leadership and dedication. ☞
Events Score Big!

Solaris Invitational

The NJ Neuroscience Institute and the Center for Head Injuries, located on the JFK Medical Center campus, were the beneficiaries of more than $206,000 raised at this exceptional event held at the renowned Baltusrol Golf Club on May 15, 2006. Our Co-chairs Tony Marchetta and Mark Dresner provided the golf committee with their usual outstanding leadership. As a result, nearly 160 golfers experienced a memorable and rewarding event filled with a great day of golf, delectable food, prizes and camaraderie. Much appreciation is extended to Engelhard our Event Sponsor, QualCare, Inc. our Luncheon Sponsor and Tri-County Lexus for selecting the Solaris Invitational as their Champions for Charity event. The donated Lexus two-some to the Lexus National Champions for Charity Tournament in Pebble Beach, CA was auctioned off at the Awards Reception to W. Harry Hill of Chattanooga, Tennessee.

Please accept our sincere apologies for any misspellings or omissions. Your input is extremely important to us, so feel free to call the JFK Medical Center Foundation at (732) 632-1540.
A Guide for Giving

By making a gift to JFK Medical Center (JFKMC) Foundation you are joining a group of dedicated and generous community members who have chosen to help guarantee the future of quality health care at JFK Medical Center. Outright gifts are the most common gifts received by the JFKMC Foundation. Most frequently, this is in the form of cash by check, credit card or money order. The Foundation also welcomes gifts of securities and real property and personal property. Outright gifts to JFKMC Foundation are tax deductible as allowed by law.

A gift today of a fixed-dollar amount or appreciated securities such as stocks or bonds may allow you to take a current charitable income tax deduction for the full market value of the assets contributed.

The Annual Fund
By making a gift through the Annual Fund, you provide the essential support needed to expand clinical services and programs for patients, and maintain and enhance the facility. Annual fund gifts are generally unrestricted for priority use by JFK Medical Center.

Matching Gifts
Matching gifts are provided by employers to encourage community investment and enable donors to double (or even triple) their gifts.

Endowment Fund
An endowment fund provides long-term financial stability, security and growth. Gifts to the endowment are a permanent investment in the mission and goals of JFK Medical Center. Your gift can be directed to the general endowment fund—named endowment funds can be established for a gift of $25,000 and above. The investment earnings on your gift will be used each year to support medical services and programs at JFK Medical Center.

Planned Gifts
Planned gifts are arranged during a donor’s lifetime, however, the benefits to JFK Medical Center often do not accrue until the donor or donor’s beneficiaries are deceased. Bequests are the most common planned gifts; others include life income agreements (such as charitable trusts), life insurance and retirement plans. You can help JFKMC Foundation plan for the future by informing us of your planned gift.

Bequest
A bequest is an outright or residual gift made through your will.

Life Income Gift
By establishing a charitable trust you can make a gift and retain the right to receive income payments for life. Gifts to charitable trusts entitle you to a current tax deduction and allow you to avoid capital gains tax.

Gift of Life Insurance
Life insurance may be a means to make a much larger gift than you thought possible.

JFKMC Foundation can be named as a beneficiary, co-beneficiary or a successor beneficiary to receive the proceeds in the event the primary beneficiary is no longer living.

Retirement Plans
The Foundation can be named as a beneficiary, co-beneficiary or contingent beneficiary of your Individual Retirement Account (IRA), Keogh Plan 401(K), 403(b) or other qualified pension plan.

Tribute/Memorial Gifts
Throughout the year, gifts are made to JFKMC Foundation to commemorate a special event, such as the birth of a child, an anniversary or birthday; a new job, promotion or retirement; or gifts to perpetuate the memory of a loved one, family member, friend, mentor or colleague. The individual or family honored by the gift is sent an acknowledgement stating that a gift has been made.

To make a gift or pledge to the Annual Fund, for more information or to schedule a tour, call the JFK Medical Center Foundation at 732-632-1540.
